## **Leaf Pick-Up**

Please follow the guidelines to have your leaves removed:

- Leaf pick-up is a **Fall** service **only**.
- The leaves must be located on the curb for removal, but not on the street.
- The leaves on the curb must be placed in a 36 inches wide formation and no higher than 24 inches.
- No other debris can be in the leaf removal pile. Other items such as twigs and rocks cause damage to the leaf vacuum and result in costly repairs.
- No fecal matter permitted. Please pick up dog feces prior to raking your leaves. Fecal matter poses a health risk for the employees and your leaves will not be picked up.
- Outside of the fall time frame you may take your leaves to the compost facility (near Recycling Center). Please place in the bunker labeled “leaves”.
- Leaves brought in bags need to be emptied into the leaf bunker and the bags disposed of in the provided trash can.
- Garden waste can be taken to the compost facility (near Recycling Center). Please place in the bunker labeled “garden waste”.

### **Additional Information**

Please contact the Village office at 419-237-2116 if you have any questions regarding the leaf removal.
